DO No.S.12019/20/2026-MS/520
Date: 19.6.2026

Sir/Madam,

I would like to draw your kind attention to the enclosed letter received from Captain Brijesh Chowta, Hon'ble Member of Parliament (Lok Sabha), regarding policy recommendations to enhance transparency and accountability in kidney transplantation outcomes.

2. The Hon'ble Member has emphasized the need for tracking long-term transplant outcomes, including graft survival, complications, and mortality, as well as disclosure of post-transplant survival data by hospitals and strict adherence to informed consent and patient communication protocols.

3. As you are aware, NOTTO maintains the National Organ and Tissue Transplant Registry, which includes a registry of kidney transplant donors and recipients. The registry provides for recording follow-up and outcome data of transplant recipients. Currently, 824 transplant centres are linked to the registry and are required to enter transplant and follow-up data through their designated login credentials.

4. Since registration and regulation of transplant centres fall under the jurisdiction of the Appropriate Authority appointed by the respective State Government/UT Administration, **you are requested to ensure that all registered transplant hospitals under your jurisdiction submit complete and timely data to the National Registry**. Regular and comprehensive reporting will strengthen monitoring of transplant outcomes, improve traceability, and support evidence-based policy decisions.

5. **You are also requested to direct the transplant hospitals to:**

(i) Display post-transplant outcome data in the format as annexed at Enclosure I on the homepage of their websites; and

(ii) Strictly adhere to informed consent requirements and ensure that all relevant information regarding transplant procedures, risks, and outcomes is adequately disclosed to patients and their families.

I request your cooperation in strengthening transparency, accountability, and outcome monitoring in organ transplantation nationwide.

Warm regards,

Yours sincerely,

(Dr. Anil Kumar)
